Kagan Australia – Teacher Professional Learning

Brain-Friendly Teaching
3 Day course
Mary MacKillop
 Cassowary Dr, Ballajura Perth
Tues 16th – Thurs 18th April 2019
 8.30am -3.30 pm

Workshop Highlights...

We can teach the traditional methods or we can teach the way the brain best learns. When we teach with traditional methods, it is like swimming against the current: teaching is more exhausting, students learn less, and students like class and content less. You will learn how to align your teaching with how brains best learn. Swim with the current. Students learn more, enjoy class more, and teaching is more effortless and enjoyable. How do we align our teaching and training with how brains best learn? Understand and implement five fundamental principles from brain science. The great thing: It's easy with simple brain-friendly Kagan Structures. In this workshop you will learn simple brain-friendly Kagan Structures that create safety, nourish the brain, generate cooperative interaction, link learnings and emotion, and make content memorable by targeting the five independent memory systems. Teach smarter using powerful principles derived from brain science. Learn more about the brain, interpret actual brain scans, increase motivation and comprehension, and ignite your students' natural love of learning. Master "brain-friendly" teaching and watch dendrites branch!

Participants learn....

- ☺ **Learn the latest in Brain Science** ☺ **Structure for Security**
- ☺ **Apply Kagan Structures for Success** ☺ **Nourish the Brain**
- ☺ **Maximise Learning** ☺ **Engage Emotions** ☺ **Utilise Social Interaction**

- I felt I have come away with a variety of inspirational strategies that have given me so many ideas of how to approach teaching my subject. The instruction was very much a 'practice what you preach' approach which was enjoyable, inspirational and encouraging! Megan, Sec teacher, ACT
- Comprehensive – research information, personal touches and active learning – well balanced. In all my years of teaching and PD Kagan CL is the only PD that I have joyfully implemented in my classroom. I have immediately seen a development of a community of learners and improved student outcomes. Michael, Y3/4 teacher, ACT
- Fantastic! Informative & interesting!! I feel empowered to have a go and jump straight in on Monday. What a fantastic day - went so quickly. Thank you!!!! Catrina AP, NSW

A rare opportunity not to be missed!!!!!! Dr Spencer Kagan is a leader in the field of education and brain research. Learn to apply his latest research in your classrooms.
