- *What a fantastically successful two days of professional learning we had on Monday and Tuesday! It would have to be, without a shadow of a doubt, the most effective professional learning I have ever done. I felt so inspired it made me want to go back into a classroom!! I don't know about other schools, but there is a real buzz happening here at the moment and all teachers have implemented the strategies and the structures in their classes already. I returned to school yesterday to find classrooms moved around and teams happening!! It was awesome!* Jack B, Principal WA
- *Everything about the presentation was extremely exciting! The content of this program is very engaging and can be effectively implemented in the classroom. Each aspect is independently designed to promote a variety of instructional practices that will ensure all students will experience success! It's great!* Melissa, K-6 teacher, ACT
- *Being introduced to Kagan Cooperative Learning and integrating it into my teaching practice has revolutionised everything I do in the classroom. I firmly believe that I am a far more effective teacher than ever before and the enjoyment my students and I experience by using Kagan in the classroom is immeasurable* Peter, HT HSIE, Winner Australian Quality Teachers Award
