Wow! This is one of the, if not the best workshop in my 12+ years as a principal. I really feel like I'll be able to use all the ideas and processes to make a positive difference for my teachers. Elizabeth, Principal, ACT

I totally agree with philosophy Kagan Coaching is based on. Coaching in-the-moment is so powerful. I can now support the teachers in a practical, easy to follow process to improve their pedagogy. Brian, DP, ACT

The structural approach has been the optimal solution to both effective classroom instruction and professional growth across a broad range of curricular areas, learning situations, and year levels. The techniques and rationale should be part of every school leaders set of professional skills. Nancy, District Director

Excellent! I leave here with ideas and materials I can put to use immediately. I have not attended any seminar that has been as worthwhile. I would highly recommend it to anyone in an educational leadership role. John, Principal, WA
