

Advanced CL for Teaching Maths

2 Day Course K – 9

Cooperative Learning

Mary MacKillop CCPS,

Ballajura Perth

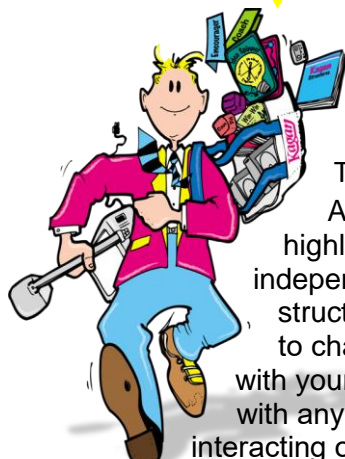

Thurs 16th & Fri 17th January 2020

8.30 am START - 3.30 pm FINISH

**Pre-requisite:
CL Days 1 & 2**

**New Course
&
Structures**

Learn teaching structures to create success in your maths/numeracy classes!

This **workshop will show you “how to” engage students in mathematics** Add zing to your daily maths/numeracy lessons! Boost attention and retention with highly-engaging structures for math/numeracy instruction. Instead of working independently on drill and kill worksheets, your students will be totally engaged with structures such as RallyCoach, Centre Piece, Telephone, Pairs Check, etc. You don't have to change what you are teaching at all. You'll learn easy-to-use tools to boost engagement with your existing curriculum. Come learn interactive structures you can use time and again with any math/numeracy lesson. Your students will love to work together. When they're interacting over maths/numeracy, they'll learn more than ever before.

Specifically for Maths/Numeracy K-9

- Experience a training custom designed for numeracy
- Process your new structures with fellow K-9 teachers
- Spice up your existing maths/numeracy lessons with new, engaging structures

Structures for Success

- Generate 100% active participation in mental maths
- Practice concepts and drill skills with structures
- Boost achievement scores
- Motivate even reluctant learners
- Bridge the gap, have all students improve
- Align structures to the Teaching Cycle

- ❖ This is the best workshop I've ever been to. It provided a wealth of great ideas and structures to engage all students in successful learning. The link to the teaching cycle supports where and why to use a structure. Timothy, Yr 4 NSW
- ❖ Totally works for my maths classes! Great ideas, easy execution and makes learning fun!! Jackie, Yr 7/8, WA
- ❖ Everything about the presentation was extremely exciting! The content of this program is very engaging and can be effectively implemented in the classroom. Each aspect is independently designed to promote a variety of instructional practices that will ensure all students will experience success! It's great! Melissa, K-6 teacher, ACT
- ❖ In 17 years of teaching, this is the only workshop I feel that I can apply immediately, and all kids will benefit. You have completely inundated me with such awesome structures for maths that is applicable to all years and ability levels. Tyson, High School, WA

Cost: \$300

Morning Tea provided - BYO Lunch
