Putting It All Together Multi-Structured Lessons

Mary Mackillop CCPS

Cassowary Dr, Ballajura, Perth

Tues 16th & Wed 17th July 2019

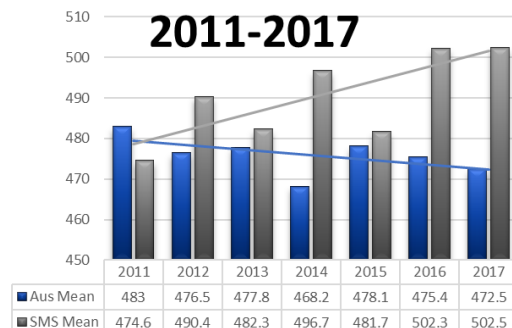

8.30am -3.30 pm

Workshop Highlights...

Do your students run into class excited about learning? Do the parents of your students tell you that you have ignited the fire of learning? Are your NAPLAN writing results like the graph? If this is what you want, attend our workshop. Learn to plan cooperative learning multi-structured lessons using literacy as the content. Teach your students spelling, grammar, vocabulary and writing in an exciting, student centered, engaging classroom. Engage even the most reluctant writers! Make each stage of the writing process more engaging and effective with interactive learning strategies.

Writing Year 5 2011-2017

The graph is NAPLAN results for our Kagan School. The school began Kagan Cooperative Learning training in 2011 and completed the Literacy: Writing course late 2015.

This course will provide framework of a program of multi-structured lessons that incorporate explicit teaching and cooperative learning to engage the students. Your students will become experts using:

• Mix-N-Match	• AllRecord RoundRobin
• Quiz-Quiz Trade	• Rally Coach & Sage-N-Scribe
• Find Someone Who	• Stand Up, Hand Up, Pair Up
• Fan-N-Pick	• RallyRobin
• Rally Quiz	• RoundRobin

- Brilliant!! This needs to be every school's writing, spelling and vocabulary program. Motivational, engaging and practical. All children, even the most reluctant writers were enthusiastic and completely engaged. To have a program where we saw so many improvements was amazing! Awesome structures complemented all the activities! At a district moderating session, other teachers could not believe the level of achievement in the samples of Year 2 writing – most thought it was Year 4. Can't talk highly enough of this program. **Clare, AP NSW**
- I felt I came away with a variety of inspirational strategies that have given me so many ideas of how to approach teaching my subject. The instruction was very much a 'practice what you preach' approach which was enjoyable, inspirational and encouraging! **Robyn, DP WA**
- Fascinating, creative and worthwhile. I'm excited about the enthusiasm and self-motivated learners that have emerged in my class. Students' writing is richer in vocabulary, story development and creativity. **Megan, teacher, ACT**
- Comprehensive – research information, personal touches and active learning – well balanced. In all my 25 years of teaching and PD Kagan multi-structured lessons are the only PD that I have joyfully implemented in my classroom. I have immediately seen a development of a community of learners and improved student outcomes. **Michael, Y3/4 teacher, WA**
